Honorable Scott A. White  
Commissioner of Insurance  
Richmond, Virginia

Dear Sir:

Pursuant to your instructions and by the authority of Section 38.2-4315 of the Code of Virginia, an examination of the financial condition, records and affairs of

**HEALTHKEEPERS, INC.**  
Richmond, Virginia

hereinafter referred to as the Corporation, has been completed. The report thereon is submitted for your consideration.

### **SCOPE OF THE EXAMINATION**

The last examination of the Corporation was made by representatives of the State Corporation Commission's Bureau of Insurance (Bureau) as of December 31, 2017. This examination covers the five-year period from January 1, 2018 through December 31, 2022.

This examination was conducted in accordance with the NAIC Financial Condition Examiners' Handbook (Handbook). The Handbook requires that the Bureau plan and perform the examination to evaluate the Corporation's financial condition, assess corporate governance, identify current and prospective risks of the Corporation and evaluate system controls and procedures used to mitigate those risks. An examination also includes identifying and evaluating significant risks that could cause an insurer's surplus to be materially misstated both currently and prospectively.

The coordinated examination of the Elevance Health Group, of which the Corporation is a member, was led by the Indiana Insurance Department. The Bureau and twenty-six other State Insurance Departments participated in the group examination. (Group exam #671-2022-1)

All accounts and activities of the Corporation were considered in accordance with the risk-focused examination process. This may include assessing significant estimates made by management and evaluating management's compliance with Statutory Accounting Principles. The examination does not attest to the fair presentation of the financial statements included herein.

This examination report includes significant findings of fact and general information about the insurer and its financial condition. There may be other items identified during the examination that, due to their nature (e.g., subjective conclusions, proprietary information, etc.), are not included within the examination report but separately communicated to other regulators and/or the Corporation.
